

Vitra and public spaces

For decades, Vitra has dedicated itself to the topic of sitting. This naturally includes time spent in public spaces – illustrated quite clearly by the fact that Vitra has had the waiting area seating system Eames Tandem Waiting ETS as a part of its product portfolio since 1962. Not only the operators of public institutions, but also individual employees, visitors and passengers benefit from the experience Vitra has gained from its global installed base and its continuous exploration of new developments.

Airports, train stations and other public spaces are often filled with people around the clock. Their planning and furnishings contribute both to their success in operations and to the well-being of the people who use them. The products employed must therefore meet the highest demands in terms of quality, design and serviceability.

Durable products for all kinds of areas

Thanks to the broad spectrum of products, visitors to waiting zones as well as users of other areas can benefit from the ergonomic and design quality of Vitra's products: from the airport gate to customs, security clearance and luggage check-in, and from restaurants, lounges and shopping areas to back offices and control centre areas.

Gate and hold room

Waiting area seating systems such as Airline, Meda Gate, .04 and ETS are suitable for airports of all sizes – even at mega hubs such as London Heathrow and Atlanta Hartsfield.

Duty free and shopping

Vitra offers, together with its sister company Vizona, highly developed expertise in the planning and implementation of retail concepts, including architectural lighting.

Check-in, security and immigration

Chairs such as the .04 and the ID Chair are perfect for intensive use – also in terms of ergonomic and hygienic aspects.

4

Air and ground traffic control

Air traffic controllers are responsible for many people's safety. With HeadLine, Vitra offers an office chair that can lessen tension and facilitate concentration during screen-based work.

Restaurant zones and bars

Food courts with their many restaurants and bars are important meeting areas where passengers should feel at ease. Vitra offers chairs and tables for all kind of restaurants – from fast food places to gourmet restaurants.

Lounges

Lounges are important areas for travellers – they can relax or work in peace and quiet there. The comfortable lounge furniture by Vitra meets the high demands of public spaces. Vitra also drives forward the development of innovative products – such as Workbays: these microarchitectural elements made of sound-absorbing polyester fleece can be used to create numerous configurations for retreat and meeting areas.

Offices

In numerous projects around the world, Vitra has demonstrated its sheer endless diversity of expertise in the planning and implementation of office environments. One thing that all of these offices have in common is that users feel at ease and motivated there, and therefore work more efficiently.

5

Vitra – a partner with comprehensive services
